Offer

Organic and gluten free food

Our company, Omega Bázis, was founded in 2011.

We produces healthy and functional foods with patented high sprouting technology.

The unique product and technology patent is protected in several countries.

Our main raw material, which we work with is the flaxseed. This appears in all of our products. We sell our products to B2B market as raw materials also.

The company lauched a new gluten free bakery sortiment to the hungarian market in summer 2017. Our new products are not only gluten free but preservative free, lactose and egg free and do not use any additives.
