

# THE FIRST CHOICE FOR WORLDWIDE TRANSPORTATION

STI Freight Management: your specialist for complex, world-wide transport projects. Our service: speed, efficiency, absolute security during transport and optimal logistics handling.

We are experts in temperature-controlled consignments. Road, sea or air freight: we offer quick and flexible distribution Europe-wide, 24 hours a day, 365 days a year.

12 locations, 221 employees, one goal: the perfect transport solution. Our highly motivated, experienced professionals make it possible.

## ALL-ROUND SERVICE: ON LAND ON WATER IN THE AIR

285,000 international road transport movements, 8,000 sea and air shipments and 28,000 customs clearances every year – that is STI Freight Management, one of Europe's leading contract logistics providers, headquartered in Duisburg, Germany. We have a growing European network with 12 STI locations in Europe and are a subsidiary of HAVI Global Logistics GmbH and Martin-Brower UK Holdings (Ltd.).

TAKING QUALITY THE EXTRA MILE

### OUR SERVICES:

- › Planning, development and execution of national and international transportation
- › Customs clearance and management
- › Storage
- › Environmental and quality management

# COMPLETE TEMPERATURE CONTROL

## ON LAND

STI Freight Management completes around 800 transport movements per day using a modern, 200-truck fleet. All vehicles feature the latest chilled and frozen temperature-controlled technology and are fitted with efficient tracking and tracing systems. Our Europe-wide road network is supplemented by over 30 routes for consolidated goods (LTL) including temperature-controlled freight.

Furthermore, we also offer rail freight as a cost-efficient transport solution. We select and liaise with suitable international rail operators and take care of customs clearance for your delivery. With us, your freight will arrive securely and on time – worldwide.

## ON WATER AND IN THE AIR

Just-in-time transcontinental transportation is the norm for our air and sea freight experts. From sourcing to delivery, we organise the perfect supply chain for your product. Our promise: dependable delivery at the best price!

## EXAMPLES:

### Sensitive and life-saving

The transportation of high-value pharmaceutical products demands the highest security and quality standards. Thanks to our experience and modern fleet of trucks, we provide secure deliveries for our clients based on strict Good Distribution Practice (GDP) procedures.

### Logistics for cruise ships

Strict deadlines and complex route planning: delivering to large cruise ships is the Champions League of logistics. For our Ships Supply Team, great preparation and flexible planning are key. Our common goal: completely satisfied clients and on-board guests.

### The extra for our clients

As your freight manager, we simply offer the best all-round solution for your logistics project. What's our "added value"? We select the best and most convenient routes on your behalf, use cost-efficient and environmentally friendly trucks and ensure that your goods always arrive securely and on time. You can completely rely on our Customs Management experts to clear your goods. Our "added value" – simply an extra mile of world-class quality.

# IT'S QUALITY THAT COUNTS
